

Summer 2005

Dear Friend,

Village Transformed

Ascension village is being transformed! People are being saved... by the Gospel, and by their new living conditions! We worked on houses in the day, and showed the Jesus Film at night. In the street outside of the little church where we presented the film it was a surprise to hear all the people loudly cheering, "Jesus! Jesus! Jesus!" It was like a cheer at a football game...their way of showing joy over His victory at the cross!

A New Home

The last few days we dedicated four homes to grateful families. One day we were invited into one of the new cement-block homes. Would we ever be happy for such a home? Well, the Haitian mother we were visiting had a smile so genuine, her face lit up. Proudly, she pointed to the little beds (with mattresses on blocks). She showed us around as if it were a palace. Her children greeted us. They played contentedly on a hard floor while we talked. So much joy and peace. The feeling was like being in heaven.

At the Sharing International office we are preparing for more teams in 2006. Our new website comes on line in February, and we are planning a radio feature to air on Christian stations. Please pray. The prayers of God's people help us do the impossible!

Come with us on a team sometime. It's YOUR life. Share it today!

In Christ,

Your Friends at Sharing International
